

# 19 DAYS LUXURY GREENLAND & ARCTIC EXPEDITION - REYKJAVIK TO CHURCHILL

Leave Iceland's charming capital en route to Greenland's blockbuster landscapes and Canada's wealth of human heritage and thrilling wildlife. A journey of epic proportions, the Endeavour promises potential polar wildlife encounters and goes deep into the heart of spectacular, steep fjords. Extended summer sunlight allows you to enjoy this region at its sparkling best. Round off the adventure among Churchill's curious beluga whales.

## ITINERARY

### Days 0 - 1 - Pre Cruise & Reykjavik

- \_ **\*\*Pre Cruise Benefits\*\*** \_
- \_ **\*\*Private Executive Transfers\*\*** \_
- \_ **\*\*International flights - Economy class\*\*** \_
- \_ **\*\*or Business Class upgrade\*\*** \_
- \_ **\*\*Airport transfers\*\*** \_

The capital of Iceland's land of ice, fire and natural wonder, Reykjavik is a city like no other - blossoming among some of the world's most vibrant and violent scenery. Home to two-thirds of Iceland's population, Reykjavik is the island's only real city, and a welcoming and walkable place - full of bicycles gliding along boulevards or battling the wind when it rears up. Fresh licks of paint

# Wild Earth Travel

*Small Ships, Big Adventures*

**wildearth-travel.com**

**info@wildearth-travel.com**

brighten the streets, and an artistic and creative atmosphere embraces studios and galleries - as well as the kitchens where an exciting culinary scene is burgeoning. Plot your adventures in the city's hip bars and cosy cafes, or waste no time in venturing out to Iceland's outdoor adventures. Reykjavik's buildings stand together - below the whip of winter's winds - together with the magnificent Hallgrímskirkja church, with its bell tower rising resolutely over the city. Iceland's largest church's design echoes the lava flows that have shaped this remote land and boasts a clean and elegant interior. The Harpa Concert Hall's sheer glass facade helps it to assimilate into the landscape, mirroring back the city and harbour. Its LED lights shimmer in honour of Iceland's greatest illuminated performance - the northern lights. Walk in the crusts between continents, feel the spray from bursts of geysers and witness the enduring power of Iceland's massive waterfalls. Whether you want to sizzle away in the earth-heated geothermal pools, or hike to your heart's content, you can do it all from Reykjavik - the colourful capital of this astonishing outdoor country.

## Day 2 - Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

## Day 3 - Cruise Prince Christian Sound

The transit through the Sound is one of this voyage's highlights. Connecting the Labrador Sea with the Irminger Sea, Prince Christian Sound or "Prins Christian Sund" in Danish is named after Prince (later King) Christian VII (1749-1808). 100 km (60 miles), long and at times just 500 m (1500 ft) wide, this majestic and spectacular fiord throws you back into a Viking era - flanked by soaring snow-topped mountains, rock-strewn cliffs and rolling hills, it is as if time has stood still and one easily forgets that this is the 21st century. As you marvel at the sheer size of the mountains that surround you, with the Arctic waters lapping deceptively at the hull, revel in the silence enveloping you. Icebergs float serenely by, carrying with them the ages of time. Be sure to wear warm clothing as this is one spectacle that you do not want to miss.

## Day 4 - Qaqortoq (Julianehåb)

The largest town in southern Greenland, Qaqortoq has been inhabited since prehistoric times. Upon arrival in this charming southern Greenland enclave, it's easy to see why. Qaqortoq rises quite steeply over the fjord system around the city, offering breath-taking panoramic vistas of the surrounding mountains, deep, blue sea, Lake Tasarsuag, icebergs in the bay, and pastoral backcountry. Although the earliest signs of ancient civilization in Qaqortoq date back 4,300 years, Qaqortoq is known to have been inhabited by Norse and Inuit settlers in the 10th and 12th centuries, and the present-day town was founded in 1774. In the years since, Qaqortoq has evolved into a seaport and trading hub for fish and shrimp processing, tanning, fur production, and ship maintenance and repair.

## Day 4 - Hvalsey

18 kilometers northeast of Qaqortoq, Hvalsey is part of Qaqortukuloq, one of the five sites of the UNESCO World Heritage Arctic farming complex Kujataa. Between Eriksfjord to the north and Einarsfjord to the south, the Hvalsey fjord branches off from Einarsfjord. Although Hvalsey is better known for the well-preserved ruins of one of the sixteen churches in the Norse's Eastern Settlement, the church was in a farmstead known as Thjodhild's Stead. This farmstead at the northeastern end of the fjord included a large building with living quarters, a hall and livestock pens, as well as other livestock pens, a storage building and a warehouse - the ruins of which can still be seen. The Norse farming laid the foundation for the Inuit farming in later centuries, leading to the UNESCO World Heritage status in 2017. In the 14th century account "Descriptions of Greenland" the abundant fish, a reindeer farm on Reindeer Island and Hvalsey's name "Whale Island" clearly indicate that the Norse had ample food sources at that time. The church was built in the Anglo-Norwegian style of the 13th century, but is known to have been built over an older graveyard. The farmstead is mentioned in the Icelandic "Book of Settlements" as property of the Kings of Norway, and the last documented event of the Norse in Greenland is a wedding which took place in the church in September 1408. After almost 600 years of abandonment, conservation work had to be done to prevent the seaward wall from collapsing.

## Day 5 - Paamiut

Paamiut, in southwestern Greenland is definitely an off the beaten track destination but well worth the journey! The brightly coloured houses dotted around the port bring warmth to the arctic scenery. The history of the community

**wildearth-travel.com**

**info@wildearth-travel.com**

dates back to 1500 BC but it was in the 18th Century that Paamiut evolved into a major trading hub within Greenland. Seal fur, whale products and soapstone carving made it prosperous. Today the draw is the opportunity to immerse yourself in such an unspoiled, majestic landscape and to observe the rare wildlife within. During the warmer summer months, minke whales, fin whales and humped back whales are all common visitors and with sharp eyes, can be seen from the shore. Craggy mountains, ethereal glaciers and clear fjords offer endless possibilities for hiking and kayaking. Rare sea eagles - Nattoralik, have made their home in these remote parts and seeing one is said to bring you good luck. Guardians of this incredible natural legacy are the Paamiut people who are justifiably proud of their culture and extremely welcoming to visitors. There is a small museum where you can learn about the fascinating local customs, traditions and way of life.

## Day 6 - Nuuk (Godthab)

In the bustling capital city of Greenland, you could be forgiven for forgetting you are in such a vast and isolated country. Nuuk is Greenland's economic and social hub, home to more than a third of Greenland's population, and although it feels like a world capital, scratch the surface, and a uniquely Greenlandic character can be found underneath. Nuuk Cathedral overlooks the gorgeous old Colonial Harbour district and the Greenland National Museum, resting place of the legendary Qilakitsoq mummies, the true highlight of the museum's archaeological collection. Above the Colonial Harbour sits downtown Nuuk, with lines of Scandistyle apartments, a bustling shopping district, the Greenlandic Parliament, Nuuk City Hall (which welcomes visitors to see its artwork) and even outdoor cafes selling locally produced food and beer. These nods to modernity compete for space with local artisan boutiques, the meat market selling the catch from Nuuk's vast fjord-lands, and the stunning Katuaq Cultural Centre, where blockbuster movies, as well as local and foreign performers entertain the people of Nuuk. Although Nuuk has long been a melting pot of Danish and Greenlandic ideas, this is a city where Greenland displays its sophistication, with the Country's only traffic lights, roundabouts and University. Most of all, expect to find a multitude of friendly people who are proud of who they are, and equally proud of the city they call home.

## Day 7 - Maniitsoq

Located in the central part of Greenland's western coast, Maniitsoq is Greenland's sixth-largest town, and home to less than 2700 inhabitants. The main attractions are the small museum and old cemetery at the northern end

of town. At the community hall local artist and artisans usually exhibit some of their carvings and beadwork. The beadwork pieces are not created just as souvenirs for visitors -- the national dress of the West-Greenlandic women uses an elaborately beaded collar. Fishing trips and even heli-skiing on nearby mountains are considered Maniitsoq's other assets. Its local name (meaning 'place of rugged terrain') contrasts somewhat with the name given by the Danish in 1782 ('New Sugarloaf').

## Day 7 - Sermilinnuaq

Some 60 kilometers southeast of the entrance to Kangerlussuaq Fjord and halfway between Maniitsoq and Kangaamiut is Sermilinnuaq, one of the smaller fjords leading to the Greenland Icecap's westernmost valley glaciers in South Greenland. Northeast of Maniitsoq's rugged scenery with peaks rising hundreds of meters into the sky, the narrow fjord with its steep mountainsides is one of the preferred halibut fishing areas for the local fishermen from Maniitsoq and Kangaamiut. In 2019, the Greenland Environment Fund granted resources to clean up and remove derelict fishing gear which had washed up along the Sermilinnuaq Fjord based on the fishermen's request. Razorbills, Brunnich's Guillemots (Thick-billed Murres), Common Guillemots, and Black Guillemots, Glaucous Gulls, and Black-legged Kittiwakes -all attracted by the rich fishing grounds- have formed eight bird colonies in Sermilinnuaq. As a result, 3,000 hectares of the fjord are considered an Important Bird Area.

## Day 8 - Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

## Day 9 - Iqaluit (Nunavut)

Iqaluit is the capital of Canada's newest territory, Nunavut, which is Inuktitut for "our land". The community is located at the head of Frobisher Bay, an inlet of the North Atlantic extending into southeastern Baffin Island. The Bay is so long that it was first taken to be the possible entrance of a Northwest Passage. In Iqaluit, the Nunatta Sunakkutaangit Museum and the Nunavut Legislative Assembly Building both house incredible collections of Inuit artwork with

# Wild Earth Travel

*Small Ships, Big Adventures*

**wildearth-travel.com**

**info@wildearth-travel.com**

interesting local prints for sale in the museum shop.

## Day 10 - Lady Franklin Island

Named in honour of Sir John Franklin's widow, the lonely and uninhabited Lady Franklin Island lies off of Baffin Island's Hall Peninsula at the entrance to Cumberland Sound. The island is named for the wife of Sir John Franklin, the Arctic explorer who died trying to discover the Northwest Passage. The geology of the island is striking with vertical cliffs of Archean rocks, likely to be some of the oldest stone in Canada. The waters around Lady Franklin Island offer an abundance seabirds, ducks, seals, and walrus. With a bit of luck it is possible to see Atlantic Puffins here and perhaps even a rare Sabine's Gull.

## Day 10 - Monumental Island

Monumental Island is a splinter of ancient metamorphic rock, hunching in the frigid waters of the Davis Strait, defying the ocean and ice around it. Named to honour the legendary Polar Explorer Sir John Franklin, the island displays at times displays everything Nunavut has to offer, in an ocean studded with vast icebergs drifting across from Greenland. Monumental Island is a well known den site for polar bears, the icon of the Arctic; there is a good chance to see mother bears with cubs on the island, as the bears become trapped by the lack of summer ice, using the island as a base to hunt until the ice returns in the Autumn. Seeing the white silhouette of a polar bear against the ancient black rock and autumn tundra colours is an experience that will remain long after returning on board. Groups of harp seals are a common sight in the waters around Monumental Island, and can be very curious, often swimming very close to investigate new objects such as boats. There are several sites on the island also used as haul out sites for the charismatic Atlantic Walrus. These vast animals are surprisingly gentle and skittish, and can often be observed caring for their calves on the rock bluffs while keeping a careful watch for polar bears. Almost nowhere else in Nunavut can the charismatic wildlife of the Arctic be observed in such a stunning setting.

## Day 11 - Akpatok Island (Nunavut)

Akpatok Island is a remote spot near the northernmost limits of the Labrador Peninsula. Steep and sheer limestone cliffs jut out of icy waters. Encased in snow and surrounded with sea ice in the winter months this uninhabited island lures huge amounts of wildlife most notably the world's largest population of

breeding Thick-billed Murres (known as Brunnich's Guillemots in Europe) estimated at well over a million birds. These auks flock to the bare cliffs of the island between June and September and murres incubate their single pear-shaped egg on the cliff ledges. Glaucous Gulls can be seen soaring above looking for unguarded eggs and chicks while Black Guillemots paddle around on the nearby sea. Akpatok Island is also a favorite summer home for polar bears as they wait for the winter ice to form.

## Day 12 - Kimmirut (Lake Harbour)

Kimmirut is a traditional Inuit hamlet of 455 people, located on the southernmost peninsula of Baffin Island, just across the Hudson Strait from mainland Quebec. It is the southernmost community on Baffin Island. The name, translating as "the heel", is named for a distinctive rocky outcrop that looks exactly like the back of your foot! First contact with Europeans occurred around 1000 AD when Dorset and Norse sailors from Greenland interacted. Intermittent contact continued between the Thule people and the Vikings for another 500 years. Interactions increased as fur hunters ventured farther and farther north, whalers came to Hudson Strait in search of bowhead whales, and Anglican missionaries arrived across the bay from the community in 1900. In 1911, the first Hudson Bay trading post on Baffin Island was built in Kimmirut. Today, Kimmirut, Formerly named Lake Harbour, is home to over four hundred people who preserve a traditional way of life, with a thriving culture of arts and crafts, including stone carving, ivory scrimshaw, and jewellery making using many gemstones native to this area.

## Day 13 - Cape Dorset (Dorset Island)

Cape Dorset is a small Inuit hamlet located on Dorset Island off the southern shore of Baffin Island. The traditional name for Cape Dorset is Kinngait (meaning "high mountain") describing the 'Cape' which is actually a 800 foot mountain. This is a nature-lovers paradise with breath-taking landscapes and an amazing abundance of arctic wildlife such as migratory caribou seabirds whales seals and walruses. Ancient native Thule (Dorset Culture) peoples lived in this area for three thousand years and it is here where the first archaeological remains were found. Captain Luke Foxe during his attempt to find the Northwest Passage in 1631 was the first European to land here. He named the Cape in honour of his sponsor Edward Sackville the Earl of Dorset. In 1913 the Hudson's Bay Company started a trading post exchanging furs and skins for supplies like tobacco ammunition flour gas tea and sugar. In 1949 the market for white fox collapsed but the art industry boomed. Since the 1950s Cape Dorset the "Capital of Inuit Art" has become an economic

mainstay of the community with more than 20% of its residents employed in the arts.

#### Day 14 - Coats Island, Nunavut

#### Day 15 - Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

#### Days 16 - 17 - Churchill, Manitoba

Archaeological evidence around Churchill indicates the former presence of Pre-Dorset, Dorset and Inuit groups, with the earliest date going back some 4,000 years. On the western shore of Hudson Bay and at the mouth of the Churchill River, Churchill became an important base for the Hudson's Bay Company and the fur trade. Two forts were built in the early 18th century, both on the Canadian National Historic Site list. A Parks Canada Visitor Center in the VIA Rail Station shows exhibits of the human and natural history. Today Churchill is a town of about 1,000 inhabitants which can only be reached by rail on land, by air, and in the case of ships only between July and November. The deep-sea port facilitates primarily the transport of Western Canadian grains. Once the ice breaks up in the Churchill River Basin, beluga whales come to feed and rest by the hundreds. With sub-arctic tundra and boreal forests, the area between Churchill and Nelson River to the south is well-known as polar bear country. Churchill even has a Polar Bear Holding Facility, better known as the Polar Bear Jail.

## YOUR SHIP: SILVER ENDEAVOUR

<b>YOUR SHIP:</b>	<b>Silver Endeavour</b>
<b>VESSEL TYPE:</b>	<b>Luxury Expedition</b>
<b>LENGTH:</b>	<b>164.40 metres</b>
<b>PASSENGER CAPACITY:</b>	<b>200</b>
<b>BUILT/REFURBISHED:</b>	<b>2021</b>

Designed for polar exploration, Silver Endeavour breaks the ice of luxury expedition travel.

We're proud to announce that our newest addition has joined the fleet. Built to PC6 Polar Class specifications - one of the highest Polar Class classifications there is - Silver Endeavour revolutionises our expedition voyages, and allows us to travel deeper to some of the planet's farthest flung coasts. Her statistics speak for themselves: from unrivalled, industry-leading crew-to-guest, zodiac-to-guest and expert-to-guest ratios, to cutting-edge navigation and exploration technology and hallmark Silversea comfort make her the most luxurious expedition ship ever built.

Spread over eight public decks, not only does she feature ample onboard space, multiple restaurants, plus a huge choice of bars and lounges, but her large and luxurious suites are some of the best in expedition cruising. Superbly designed, all her suites feature a balcony and our highest standards of service thanks to an impressive crew-to-guest ratio of 1:1.

### Mud Room

Silver Endeavour's Mud Room is the perfect place to prepare for all your expedition activities. Spaciously designed, the two mud

rooms are superbly modern, and equipped with state-of-the-art equipment.

### Explorer Lounge

Strategically located mid-ship on deck 4, the Explorer Lounge is the operational heart of shore excursions while onboard. This is where you'll attend your daily recap and briefing sessions or attend lectures.

### Connoisseur's Corner

The Connoisseur's Corner is an indulgent and sophisticated cigar lounge, where you can enjoy an after dinner drink in a cosy private club atmosphere.

### Otium Spa

Otium is where you can relax and unwind, but also where you can enjoy world class treatments that make sure you look as good as you feel and that even Venus herself would envy.

### Observation Lounge

The Observation Lounge offers one of our favourite vantage points of Silver Endeavour. Plus 270-degree surrounding glass windows make this immersive venue ideal whatever time of the day.

### Beauty Salon

Our committed and competent team of beauty therapists is here to help keep your hair, nails, skin, and body healthy and happy.

### Fitness Centre

Whether you are a serious keep fit fanatic or casual athlete, you'll find what you're looking for in Silver Endeavour's Fitness Centre. Expertly designed classes and personal training sessions make sure that you keep in shape.

### Boutique

# Wild Earth Travel

*Small Ships, Big Adventures*

**wildearth-travel.com**

**info@wildearth-travel.com**

Located mid-ship on Deck 5, the Boutique aboard Silver Endeavour means luxury shopping experiences do not end just because you're at sea! Carefully selected partners offer a wide selection of the latest fashions.

#### Pool Deck

Surrounded by glazing extended all the way to the top of the venue, the Pool Deck gives you the feeling of always being connected to the sea. The glass-enclosed pool deck is the ideal place to enjoy breathtaking views.

#### Library

Whether you're an avid bibliophile or simply prefer a quiet place while at sea, it's hard not to fall in love with Silver Endeavour's onboard library, with its beautiful reference books, comfortable chairs and stunning scenery.

ng scenery.
