BIG ACE — ARCTIC CLIMATE EXPEDITION

Aurora Expeditions, in partnership with Dr Sylvia Earle and Ocean Geographic, is excited to invite you aboard the "Arctic Climate Expedition 2025"

The BIG ACE - the Bears, Ice, Glaciers, Arctic Climate Expedition 2025 begins from Longyearbyen, Svalbard, and navigates northward to go beyond 80°N in pursuit of the remaining Arctic ice shelf. The voyage will aim to proceed (weather permitting) eastward towards Kvitøya, circling around Austfonna, one of the largest glaciers on the planet. Throughout, the aim will be to encounter and observe a diverse array of Arctic wildlife, including polar bears, walrus, puffins, and arctic foxes, amidst the stunning backdrop of sea ice platforms and calving glaciers. With Svalbard boasting an astounding 2100 glaciers, this expedition promises an unparalleled natural spectacle.

Hosted by Dr Sylvia Earle in her 90th birthday year, this expedition will honour Dr Earle's lifelong advocacy for the world's oceans by inviting changemaker passengers to use their own voice, contributing their various talents or 'superpowers' to instigate meaningful conversations and spur action to safeguard the planet for future generations.

BIG ACE seeks to lobby for the protection of the Arctic, foster a collective appreciation of our planet's fragility and mitigate the impact of climate change through the power of the arts. The Arctic, where warming occurs at a rate four to five times greater than the global average, is undergoing significant degradation.

As a Certified B Corporation™, we're committed to driving positive change and contributing to a more sustainable future. The Arctic Climate Expedition 2025 is a key initiative towards fulfilling that goal - building ambassadors for the conservation and preservation of our planet.

BIG ACE isn't confined to scientists and researchers; this epic project calls for an assemblage of 110 global citizens and we welcome people of all ages, nationalities, educational and professional backgrounds. Each participant will be asked to contribute their specialised expertise for a collective cause, using their unique voice. Whether through storytelling, film production, poetry, music, art, education, lobbying, or other avenues, every participant will play a vital role in championing the Arctic's cause.

Meals: All inclusive

Day 3 Fly to Longyearbyen

Following breakfast, walk to Oslo Airport for your included charter flight to Longyearbyen (flight details will be available in February 2025). You will be met by a representative of Aurora Expeditions at the hotel and taken to the check in counter for your charter flight.

Upon arrival in Longyearbyen, you will be transferred to our group hotel. Upon arrival at your included hotel, please visit the Aurora Expeditions hospitality desk to collect your luggage cabin tags and to speak with our ground operations team, who may have information to share with you about pre-embarkation or to provide you with information about where to dine or purchase last minute items from a local pharmacy or supermarket. The remainder of your time is at leisure. All meals today are at your own expense.

Accommodation: Radisson Blu Polar Hotel, Spitsbergen

Day 4 Embarkation

This morning, your luggage will be collected from your hotel and transferred directly to the port for sanitisation, clearance and delivered to your cabin ahead of your arrival on board. Please ensure that your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Any valuables or personal items should be kept on you throughout the day.

Enjoy breakfast in the hotel before joining your fellow expeditioners on a guided city tour of Longyearbyen. After the tour, you will be transferred directly to the pier to embark in the late afternoon. Settle into your cabin before attending important safety briefings and enjoy the thrill of departure as we 'throw the lines' and set sail.

Days 5-12 Svalbard

Svalbard offers Arctic wilderness at its best. The members of our experienced Expedition Team, who have made countless journeys to this area, will use their expertise to tailor our day-to-day itinerary, choosing the best options, based on

ic's cause.

ITINERARY

Days 1-2 Arrive in Oslo & BIG ACE Conference

Having made your way to Oslo, you will be met on arrival by the Ocean Geographic team and directed to your hotel. Take the international arrivals exit on the ground floor, follow the signs and walk 500m through the direct walkway from Oslo Airport to the Radisson Red Oslo Airport hotel. Journey time: 6 minutes.

Enjoy pre-expedition workshops and lectures led by Ocean Geographic, Dr. Sylvia Earle and Aurora Expeditions.

Accommodation: Radisson Red Airport Hotel, Oslo

the prevailing weather, sea-ice conditions and the possibility of encounters with wildlife.

Phenomenal fjords, magnificent mountains ranges, and a polar desert rich in fossils, set the stage for heroic tales of early exploration. See walrus hauled-out on sea ice or on beaches. On land, we stretch our legs on walks across tundra carpeted in brightly coloured wildflowers. We visit towering cliffs noisy with nesting guillemots and puffins, and scree slopes that hold Svalbard's largest little auk colonies. Most memorable will be encounters with the majestic polar bear on pack ice.

Distinct from conventional polar expeditions, expeditioners on the Arctic Climate Expedition 2025 will have the chance to engage in hands-on workshops and activities designed to foster environmental stewardship and promote sustainable living. These engaging sessions encompass a variety of subjects, including essay writing, fine art painting, photography, and public speaking, empowering participants to express their commitment to conservation through diverse creative outlets.

If you have chosen an optional activity such as kayaking, you will have an opportunity to enjoy that activity when conditions allow. For those who are enthusiastic to participate in a polar plunge, as soon as conditions are suitable, you will hear the announcement to prepare for an exhilarating dip - a memory you will savour for years to come.

Day 13 Disembark in Longyearbyen, fly to Oslo

During the early morning, we cruise into Longyearbyen and disembark at approximately 8.00 am. Farewell your Expedition Team and enjoy some free time before transferring to the airport for your return charter flight to Oslo to continue your journey.

Note: the arrival time in Oslo is contingent on the approved allocated flight slot of our charter flight to Longyearbyen, which we expect to receive in February 2025.

Please note:

Itineraries are subject to change.

YOUR SHIP: SYLVIA EARLE

| | |
|----------------------------|--------------------------|
| YOUR SHIP: | Sylvia Earle |
| VESSEL TYPE: | Luxury Expedition |
| LENGTH: | 104 meters |
| PASSENGER CAPACITY: | 126 |
| BUILT/REFURBISHED: | 2020/2021 |

Due to sail in October 2021 our new ship honours the highly accomplished marine biologist, oceanographer and explorer, Sylvia Earle. As the first female chief scientist of the U.S. National Oceanic and Atmospheric Administration, and named by Time Magazine as its first Hero for the Planet in 1998 - this vessel pays tribute to Sylvia's long standing conservation efforts for marine protected areas and ocean wildlife. Sylvia Earle will be actively involved in the development of her namesake.

Designed for rugged, remote areas Crossing the notorious Drake Passage or the Denmark Strait, our expeditions face some of the most intense conditions nature can throw at us. The Sylvia Earle is at the cutting edge of nautical technology: robust, powerful and up to the task.

Ulstein X-BOW® & Lounge The streamlined Ulstein X-BOW® cuts through the swell so you feel fewer vibrations and disturbances, and makes quicker transits through waves. It also helps reduce our fuel consumption by up to 60%^. Experience the Glass Atrium Lounge inside the bow, featuring huge windows and superb views to the front of the ship.

Swimming pool & wellness centre In between landings, enjoy the heated saltwater open air swimming pool and jacuzzis on

board the Sylvia Earle and watch the world go by, or experience our gym, sauna or enjoy a massage (additional cost) in the Wellness centre.

Safety features The Sylvia Earle will feature industry-leading safety technology that exceeds the requirements for a ship of this size with a world class return-to-port equipment, which duplicates the propulsion system, enabling the ship to maintain operating systems and comfort in the event of engine failure. The ship will also feature a fully-stocked medical clinic designed for use in remote areas.

Responsible travel features We believe that preserving and protecting the environment is of the utmost importance and this is reflected in several features of the Sylvia Earle. The Sylvia Earle will boast one of the lowest polluting marine engines in the world due to low energy consumption, high fuel-efficiency and a streamlined design to deliver an 80% reduction in emissions. The ship can also utilise virtual anchoring to hold its position using a combination of GPS, steering technology, propellers and thrusters. This protects the sea floor and minimises the damage caused by conventional anchors.

Zodiac launching platforms Our ships carry many Zodiacs, which you can board via four dedicated, sea-level launching platforms. These platforms make boarding the Zodiacs as quick, efficient and safe as possible, minimising wait times and getting you closer to the action for longer. Whether you're Zodiac cruising through awe-inspiring fjords in search of wildlife or making a quick transit from ship to a shore landing site, these sturdy crafts will play an integral role in your expedition experience.

Activity preparation area We offer a range of add-on adventure

activities from kayaking and diving to climbing and ski touring, and your ship is designed to support these activities, making the transition from ship to sea or shore as smooth as possible. We built the spacious activity preparation areas and loading platforms in consultation with our expert activity guides. You will also have access to lockers and rapid drying areas for dry suits and wet suits, to give your gear the best chance to dry between excursions.
