MS Nordlys

Both the name and the interior design of this modern expedition ship are inspired by the spectacular Northern Lights (Aurora Borealis). The art, decor and colours employed aboard this ship are all inspired by the northern lights. The delicate aesthetic creates a distinct and unique on-board ambience. Passengers are invited to relax after a long day experiencing Hurtigruten's various excursions and activities in comfy reclining chairs in the one of the ship's lounges. MS Nordstjernen

MS Nordstjernen is named after the North Star or Stella Polaris, famous for helping seafarers find their way back home and the Vikings to navigate the north. The ship was built for the Coastal Voyage fleet in 1956 and extensively modernised in 2000 for exclusive Arctic sailing. Today she takes explorers on adventures

in the waters around Spitsbergen. Despite modernisation, she still retains the aura of an old Atlantic ship, restored to her former splendour with new brass, classic wooden interiors and all her original art. Out on deck you come extra close to the untouched nature of the Polar Arctic and with roofs over a lot of the deck space you can enjoy being outside, even in rough weather. MS Roald Amundsen

In 2019, Hurtigruten added a brand new ship to its fleet: the MS Roald Amundsen. The state of the art vessel features new and environmentally sustainable hybrid technology that will reduce fuel consumption and show the world that hybrid propulsion on large ships is possible. MS Roald Amundsen is the first of two hybrid ships Hurtigruten will add to its fleet over the next few years. Emissions are cut by sailing with electrical propulsion. Innovative sustainable technology reduces fuel consumption and CO2-emissions on the ships by 20 percent. Named after the first man to cross Antarctica and reach the South Pole, MS Roald Amundsen leads the way towards an even more sustainable way of travelling. The ship is specially constructed for voyages in polar waters. It serves as a comfortable basecamp at sea - bringing adventurers from all over the world to the most spectacular destinations in the most sustainable way.

MS Richard With

MS Richard With proudly carries the name of Hurtigruten's founder. It is aptly designed and built in classic maritime style. When Captain Richard With established the Norwegian Coastal Express in 1893, he made an enormous impact on life along the Norwegian coastline. The MS Richard With lives up to that legacy. Relax in the ship's panorama lounges and take in the unforgettable views of remarkable coastal scenery, much of it the same as when the first Hurtigruten boats sailed by more than a century ago. Beautiful art throughout the ship's interior adds contemporary elegance to the vessel's maritime ambience.

MS Spitsbergen

Our new ship, MS Spitsbergen will take you on a voyage beyond

the ordinary. MS Spitsbergen is named after the crown jewel of Arctic Norway - the Svalbard archipelago and its biggest island, Spitsbergen. Hurtigruten has a long history of travelling to Spitsbergen, beginning in 1896 with the 'Sports Route'. MS Spitsbergen cruises along the Norwegian coast from September to May, and becomes part of our global Explorer sailings during the rest of the year. After complete reconstruction, MS Spitsbergen joined the Hurtigruten fleet in 2016. The ship features high technical standards as well as comfortable, modern public areas and cabins. The vessel's fresh Scandinavian design reflects a colour palette derived from the sea. She is modern and environmentally progressive, and we plan further improvements that will reduce emissions and fuel consumption even more. The new ship's maneuverability and optimal size make her quite suitable for exploring polar waters.

MS Trollfjord

The ship is named after the spectacular Trollfjord in Lofoten. Inside she provides spectacular comfort, modern facilities and interior design that makes extensive use of Norwegian wood and stone. The art exhibited aboard ship includes original paintings that were once on board the old Hurtigruten ship, MS Harald Jarl. MS Trollfjord's sun deck and hot tub are on deck 9. The ship's spacious, two-storey panorama lounge is above the bow. Its wall-to-wall windows bathe the lounge in natural light and provide extraordinary views.

MS Vester alen

MS Vesteralen is named after the first Hurtigruten ship that sailed along Norway's rugged coastline in 1893. She is one of our smaller boats and has an intimate on-board atmosphere. MS Vesteralen provides passengers an authentic heritage experience. In its exciting programme you will learn more about the ship's maritime operations, logistics and hotel operations.
