The colonial influence is visible throughout the town, with houses painted in primary colors and architecture dating back to the 1700s. Stroll through the town square and visit the museum, where Greenlandic kayaks, hunting equipment, and local art and handicrafts are on display. Watch for harp seals as we enter the harbor and take a walking tour with local residents to learn how the community has changed over the generations. At the National Museum, examine the extraordinary 15th-century Qilakitsoq mummies found near Uummannaq—a discovery that was featured in a National Geographic magazine cover story in 1985. The Arctic ice preserved these mummies so well that researchers have been able to study their tattoos, their medical conditions, and even what they ate.

Meals Included: Breakfast, Lunch, Dinner

Day 11 Evighed Fjord

In the early morning, the ship enters Evighed Fjord (Kangerlussuatsiaq Fjord), which winds picturesquely past steep mountains and stunning tidewater glaciers. Visit the town's excellent community museum to see traditional clothing and tools along with scenes of everyday life on these islands and enjoy a stroll through the streets of this northern outpost. In the afternoon, with special village permissions, cross the fjord to the site of Qilakitsoq, an important archaeological site for Greenlanders, where eight mummies, dating back to 1475, were discovered in 1972. These eight individuals, all extraordinarily well-preserved women and children, were Thule people, the ancestors of the modern Inuit and was featured on the cover of the February 1985 issue of National Geographic magazine. Day 19 Disko Bay / Ilulissat

Sail into Disko Bay to explore the World Heritage-listed Ilulissat Icefjord, a tongue of the Greenland ice sheet that extends to the bay. Here, the Sermeq Kujalleq glacier calves enormous amounts of ice at an astonishing rate, releasing icebergs that can soar up to 300 feet. A cruise among these gigantic sculptures of ice is a highlight of our voyage. Explore the remains of the historic fishing village of Sermermiut and take in spectacular views of the ice-laden mouth of the fjord.

Meals Included: Breakfast, Lunch, Dinner

Days 20-22 Exploring East Baffin Island, Nunavut, Canada

We begin our exploration of the Canadian High Arctic with a visit to the small Inuit community of Pond Inlet, Nunavut. Explore some of the beautiful bays and inlets along Baffin Island's Lancaster Sound, a favorite Inuit hunting and fishing location for hundreds of years. Carved by Ice Age glaciers, Lancaster Sound is also the eastern gateway to the Arctic Archipelago, where European

explorers like William Baffin first ventured in the 17th century to search for the Northwest Passage. Our days here are spent searching for ringed seals, arctic foxes, walruses, and polar bears, as well as beluga and bowhead whales. Visit Devon Island and take a walk with our ship's archaeologist to learn about the Thule people--ancestors of the modern Inuit--that once inhabited this region.

Meals Included: Breakfast, Lunch, Dinner

Days 23-32 Exploring the Northwest Passage

Our ice-strengthened ship, National Geographic Resolution, navigates the Northwest Passage following nature's path--dependent on ice and weather conditions. Taking our cues from nature, we follow wildlife, stop for hikes on the tundra, or drop anchor in a beautiful fjord or an icy bay to explore and kayak beneath massive ice sculptures and soaring cliffs.

Along the way, explore ice-studded channels and glacier-carved islands that stretch for hundreds of miles--a stunning display of raw geology; survey the rocky, "Mars-like" terrain of uninhabited Devon Island; sail past the northernmost part of mainland North America in the Bellot Strait, one of the narrowest and most infamous of the passage; and cross the top of the Northwest Territory of Canada to search for ringed seals, arctic foxes, musk oxen, walruses, and polar bears, as well as beluga and bowhead whales.

History and culture are also on the itinerary. Learn about the Inuit peoples who have hunted and fished here for thousands of years. And hear heroic stories of the early explorers: Roald Amundsen, John Ross, William Edward Parry, and James Clark Ross, among others.

Meals Included: Breakfast, Lunch, Dinner

Day 33 At Sea

Indulge in National Geographic Resolution's amenities as we continue along the shores of the Canadian High Arctic. Soak in the ship's infinity-style outdoor hot tubs, take in panoramic views from the rooftop observation deck, and enjoy talks from our onboard experts. Take time to reflect on the amazing wildlife and geology that have highlighted our journey so far.

Days 39-40 Pribilof Islands / St. Paul and St. George Islands

A naturalist's paradise, the Pribilof Islands welcome three million seabirds and

a million marine mammals each summer during the breeding season. Cruise beneath the cliffs of St. George, rocky outcrops that harbor one of the largest seabird colonies in the Northern Hemisphere. Watch for horned and tufted puffins, red-legged kittiwakes, crested auklets and rare Asian vagrant species seldom seen in North America. Go ashore on St. Paul, home to the majority of the Pribilofs' more than half a million northern fur seals.

Meals Included: Breakfast, Lunch, Dinner

Day 41 Baby Islands / Dutch Harbor

The westernmost tip of the Alaskan mainland gives way to a 1,100-mile-long string of islands that separate the Bering Sea from the northern Pacific: the Aleutian Islands. Begin your exploration of this wildlife-rich archipelago at the Baby Islands, east of Unalaska. Here, dynamic tides offer the chance to look for sea otters and fur seals, as well as rare seabirds. Stand on deck as the ship navigates Baby Pass and be on the lookout for the islands' wildlife. Arrive at Dutch Harbor, site of a fierce World War II battle and now one of the world's most important fishing ports.

Learn about the culture of the Aleuts, a fishing and hunting people who have inhabited these islands for millennia. Observe marine mammals such as northern fur seals, Steller sea lions and a variety of whales, as well as prolific birdlife. Witness how the weather-wind, rain, fog and glorious sunshine-impacts all aspects of life in this spectacularly scenic region.
