iguanas, sea lions, tropicbirds, pelicans, boobies, Galapagos shearwaters, swallow-tailed gulls.

DAY 2 AM: BLACK TURTLE COVE PM: HIGHLANDS

Black Turtle Cove gets its name from the abundance of green sea turtles, locally known as: "tortugas negras". There is no landing here so you will be doing a boat tour on the dinghies, exploring shallow channels and small coves surrounded by beautiful mangrove forests. Reef sharks, sea turtles and several species of rays inhabit this beautiful area which is considered an important mating area for turtles and a nursery for several species of sharks. Herons, pelicans and boobies are also common here as they pray in schools of anchovies. Highlights: White -tipped and black -tipped reef sharks, green sea turtles, rays, herons, blue -footed boobies, mangroves. Either if you do this visit starting from Baltra or from Puerto Ayora, a bus will take you to the highlands stopping along the way at one of the reserves to visit the lush highland forests where you will look for Galapagos Giant tortoises in their natural environment. This is the best place in the Galapagos to see these gentle giants (reaching over 300 kg / 600 pounds!) casually grazing and resting in freshwater ponds. This is also home for a great diversity of birds rarely found at the lowlands, including finches (tree, woodpecker and vegetarian finches), flycatchers and several species of water birds. You will visit a lava tunnel (depending on the itinerary) and learn how these extraordinary formations were created by ancient volcanic eruptions. Highlights: Giant tortoises, Darwin finches, barn owls, white -cheeked pintails, Galapagos flycatchers, Lava tunnels.

DAY 3 AM: DARWIN BAY AM: EL BARRANCO

Genovesa is a favorite island for birdwatchers as it is home for very large colonies of seabirds. From the minute you set foot at the beach you will be amazed by the noise of hundreds of boobies, gulls and frigatebirds flying over your heads, perched in the bushes or nesting on the sandy terrain. The trail is an ultimate wildlife experience as there are animals everywhere; sea lions and marine iguanas near the sea; night herons, lava & swallow tailed gulls, Darwin finches, Galapagos doves, mockingbirds and many more species inland. Snorkel: The bay offers several places to snorkel; from deep waters along the cliffs across the bay, to shallow waters by the beach. In either case, there are many fish to see and great chances of seeing sharks, rays and sea lions. Highlights: Nesting great frigatebirds, red footed & Nazca boobies, Galapagos sea lions, lava & swallow \- tailed gulls, yellow -crowned night herons, Genovesa ground finch, Genovesa cactus finch, Galapagos mockingbirds. El Barranco is located in the southern part of Darwin Bay at Genovesa Island. The cliffs facing the sea are made of very fragile fractured lava, making it the ideal place for storm petrels to build their colonies, which attracts an important population of short -eared owls preying on the nesting birds. Red footed and

Nazca boobies are abundant along the trail. At the base of the cliffs you can see Galapagos fur seals resting in shaded areas, as well as several species of seabirds. Snorkel: You can snorkel along the cliffs where there are many fish and great chances of seeing sharks, rays and sea lions. Highlights: Nesting great frigatebirds, red footed & Nazca boobies, Galapagos sea lions, Galapagos fur seals, lava & swallow -tailed gulls, yellow -crowned night herons, Genovesa ground finch, Genovesa cactus finch, Galapagos mockingbirds.

DAY 4 AM: SULLIVAN BAY PM: BARTOLOME

This hike is a journey into understanding the birth of these volcanic islands. You will walk in a very well preserved flow of Pahoehoe lava, which will give you endless opportunities to see the delicate textures of these types of lavas which only appear in a few places throughout the world. At first sight the barren landscape looks completely deprived of life, but look carefully for pioneer plants, lava lizards and small birds. By the shore, you can find penguins, pelicans and oystercatchers. Snorkel: You will have the option to swim or snorkel from a coral sand beach or from the dinghies. Getting underwater is like traveling to another world: if the land is almost lifeless, the sea is teeming with life, including large schools of fish, Galapagos penguins, reef sharks, turtles and rays. Highlights: Pahoehoe lava, Galapagos penguins, oystercatchers, Galapagos hawks. Bartolome is one of the most iconic places in the Galapagos and one of the few where you can see penguins without going to the remote areas of western Isabela and Fernandina. You will get great views of Pinnacle Rock, located on the northern side of the island, right next to a beautiful peach -color sand beach. The hike to the top of the island is fantastic and will offer you incredible views of lunar landscapes with scattered volcanic cones. Many islands are visible from this outlook, as well as the bay of Sullivan and the Pinnacle rock. Snorkel: You will have the option to swim or snorkel from the beach. This area holds a well -deserved reputation of being one of the best snorkeling places in the Galapagos, not only because it's clear and calm water, but also because of the presence of penguins, which are relatively easy to find while snorkeling, along with an incredible diversity of fish, colorful invertebrates, sea lions, turtles, rays and reef sharks. Highlights: Galapagos penguins, volcanic landscapes, Pinnacle rock, blue \- footed boobies, herons, sea lions, sharks.

DAY 5 AM: SEYMOUR

This island is home for large colonies of both magnificent and great frigatebirds and you can see them displaying their red balloons to attract a female. Blue-footed boobies nest in the ground and perform their famous dance in the open areas, while swallow-tailed gulls perch on the cliff edges. Land iguanas are common inland while their marine cousins bask in the rocks by the sea, close to sea lions, which often like to body surf in the waves.

YOUR SHIP: BONITA

YOUR SHIP:	Bonita
VESSEL TYPE:	Small Ship
LENGTH:	25 meters
PASSENGER CAPACITY:	16
BUILT/REFURBISHED:	2019

Welcome area: Totally Furnished

Social area: Artistic decoration inspired on endemic species of Galapagos. Direct access to the bar.

Dining area: Vegan and vegetarian options. Coffee and water station.

Cabins: Fully Equipped, 4 Cabins in the upper deck, 2 Cabin in the main deck, 3 Cabins in the lower deck. All cabins offers private facilities such as: private bathrooms, cold/hot water, air conditioning, towel dryer, safe.

Sundeck: Equipped with 6 chairs to rest and admire amazing landscapes.

Amenities: Shampoo, conditioner, soap.

Exceptional Service: The physical capacity of the cruise is 16 passengers. This means that we have the space to accommodate single passengers and tour leaders, creating a very personalized on board experience.
