

## GALAPAGOS SOUTHEASTERN SPLENDOR & SECRETS - A

Embark on an unforgettable Galapagos adventure, starting with a warm welcome at San Cristobal Airport and an insightful visit to the Interpretation Center, where you'll delve into the islands' fascinating history. Explore stunning natural landscapes, from the volcanic grandeur of Kicker Rock to the lush highlands of San Cristobal, home to giant tortoises and diverse bird species. Discover unique sites such as Punta Pitt, where you can observe various booby and frigate bird species, and relax on the idyllic beaches of Gardner Bay. Uncover the historical intrigue of Post Office Bay and witness the vital conservation work at the Charles Darwin Station, dedicated to preserving the archipelago's extraordinary wildlife and ecosystems.

## ITINERARY

DAY 1 AM: SAN CRISTOBAL AIRPORT PM: INTERPRETATION CENTER

Unfurl the sails of adventure and embark on an unforgettable journey to the Galapagos Islands. You'll arrive at San Cristobal Airport, where a seasoned naturalist guide, the custodian of this ecological gem, will greet you. Feel the flutter of anticipation as your exploration of this astonishing world heritage site commences.

Located in the outskirts of Puerto Baquerizo, this center is dedicated to the history of human presence in the Galapagos. Since the times of the early Spanish explorers to the present times, including illustrious visitors such as

Charles Darwin, this permanent exhibition will take you through the dangers and struggles of the first settlers trying to survive the harsh Galapagos environment.

## DAY 2 AM: Witch Hill – SAN CRISTOBAL ISLAND PM: PUNTA PITT

Start your day at Cerro Brujo, a breathtaking white sand beach on San Cristobal Island's northern coast. This beach is one of the first sites visited by Charles Darwin. It's an exquisite spot for walking and enjoying the scenery, with its powdery white sand and turquoise waters. The area is home to a large sea lion colony, and the nearby lagoon often hosts several bird species, including pelicans and blue-footed boobies. The clear waters also make it an ideal spot for snorkeling, where you can encounter rich marine life.

head to Punta Pitt, located on the eastern end of San Cristobal Island. This unique site is the only place in the Galapagos where you can see all three species of boobies and two species of frigate birds. The trail here offers a challenging hike up a steep path but rewards with stunning views of the coastline. The beach area is also a great spot for snorkeling and swimming, offering a chance to see various marine life.

## DAY 3 AM: A WALK-THROUGH NATURE'S GALLERY - SUAREZ POINT PM: A TROPICAL PARADISE - GARDNER BAY

This rocky trail presents a natural gallery of the Galapagos islands, brimming with an awe-inspiring array of fauna. Upon landing, you'll be greeted by sea lions and marine iguanas, your first hosts in this nature carnival. As you venture further, you'll encounter a mosaic of seabird colonies - from the striking Nazca and blue-footed boobies to the elegant gulls and tropicbirds. The pinnacle of this journey brings you face-to-face with the waved albatross, the island's largest bird (present from April to January). This majestic creature, exclusive to Española, will captivate you with its powerful flight and intricate courtship display.

Sugar-white coral sands merge with crystal-clear turquoise waters, creating a tropical oasis. Watch as the beach becomes a theatre, starring sun-basking sea lions in a playful performance. This idyllic setting invites you to stroll along the coast, immersing yourself in an enlightening experience as you delve into the biology of the endemic fauna - from the melodious Española mockingbird and the unique marine iguanas to the regal Galapagos hawks.

## DAY 4 AM: THE WONDER OF NATURE - CORMORANT POINT / DEVIL'S CROWN PM: MAIL FROM THE PAST - POST OFFICE BAY

Shift your expedition northwards to Punta Cormorant, renowned for its expansive coastal lagoon teeming with American flamingos, white-cheeked pintails, black-necked stilts, and other shorebirds. This natural haven also features a pristine white sand beach, a crucial nesting ground for green sea turtles, and a newly established breeding ground for blue-footed boobies near the trail. Amidst this vibrant wildlife, also take the opportunity to admire the island's unique flora.

This locale is imbued with tales from the late 1920s and '30s involving German settlers, a baroness, unsolved mysteries, and captivating intrigue. The bay was a historic anchoring point for whalers, who journeyed to the highlands for freshwater and tortoises. A mail system over two centuries old was established as a hub for visiting vessels centered around a barrel near the beach. This system endures today, offering a unique opportunity to send postcards from this remote part of the world. Apart from its rich history, Post Office Bay presents natural attractions such as a scenic beach, a lava tunnel, and sea tours that can unveil sea lions, green sea turtles, shorebirds, small sharks, and, if luck permits, Galapagos penguins.

## DAY 5 AM: ESTACIÓN CHARLES DARWIN

The Charles Darwin Station is a nonprofit organization which has been working for decades together with the Galapagos National Park to preserve the biodiversity of these unique islands. During this visit you will learn about the projects that both institutions carry together to protect the native species and eradicate the invasive ones which are threatening the Galapagos environment. One of the most important and emblematic projects has been reproducing giant tortoises in captivity. The visit is mostly outdoors in a beautiful dry native forest with giant cactus and many other interesting native plants. It is also a fantastic place to find several endemic Darwin finches, as well as flycatchers and mockingbirds. Highlights: Galapagos giant tortoise & land iguanas breeding program, Darwin finches, Galapagos mockingbirds, Galapagos flycatchers, yellow warblers. Trail: 2 km / 1,2 mi Then, transfer to the airport to take your flight back to continental Ecuador.
