

GALAXY SIRIUS GALAPAGOS CRUISE B

Embark on an extraordinary 6-day Galapagos cruise, immersing yourself in the stunning natural wonders of the islands. Explore Santa Cruz's Highlands and witness the diverse wildlife. Visit Isabela Island, where you can admire the volcanic landscapes of Moreno Point, Elizabeth Bay, Urbina Bay, and Tagus Cove. Discover the pristine wilderness of Fernandina's Espinoza Point and encounter unique species like marine iguanas and flightless cormorants. Explore Santiago's Egas Port, Espumilla Beach, and Buccaneer Cove, known for their captivating beauty. Conclude your journey on Santa Cruz's Dragon Hill, observing the fascinating Galapagos wildlife.

ITINERARY

DAY 1 AM: BALTRA AIRPORT PM: HIGHLANDS

Departure to the Galapagos Islands, arrival at Baltra airport, where our naturalist guide of the National Park will be waiting for you. Either if you do this visit starting from Baltra or from Puerto Ayora, a bus will take you to the highlands stopping along the way at one of the reserves to visit the lush highland forests where you will look for Galapagos Giant tortoises in their natural environment. This is the best place in the Galapagos to see these gentle giants (reaching over 300 kg / 600 pounds!) casually grazing and resting in freshwater ponds. This is also home for a great diversity of birds rarely found at the lowlands, including finches (tree, woodpecker and vegetarian finches), flycatchers and several species of water birds. You will visit a lava tunnel (depend on the itinerary) and learn how these extraordinary formations were created by ancient volcanic eruptions. Highlights: Giant tortoises, Darwin finches, barn owls, white-cheeked pintails, Galapagos flycatchers, Lava tunnels.

DAY 2 AM: MORENO POINT PM: ELIZABETH BAY

Moreno Point is a magical place with extensive lava fields which look lifeless at first sight. Once inland, scattered brackish lagoons form an oasis of life where you can find flamingoes, gallinules, ducks and herons. Along the shore we will look for penguins, marine iguanas, flightless cormorants, blue-footed boobies, sea lions, oystercatchers and other shore birds. Snorkel: We will snorkel to see sea turtles, cormorants and many species of fish. Look carefully in the long seaweeds and you might find a sea horse. Highlights: American flamingoes, ducks, gallinules, penguins, cormorants, marine iguanas, sea lions, Galapagos mockingbirds, Darwin finches. Elizabeth Bay is a beautiful sheltered bay surrounded by large mangroves and barren lava fields. There is no trail here so you will take a dinghy tour to explore many channels, pools and coves teeming with life. This is one of the best locations in the islands to see Galapagos penguins, but don't expect to see thousands of them, as the entire population of the islands is only about 3,000 of them. Flightless cormorants also nest in the area and blue-footed boobies and pelicans often fish in these shallow and rich waters. Rays and sea turtles are also very abundant. Highlights: Galapagos hawks, sea turtles, rays, Galapagos penguins, flightless cormorants, herons.

DAY 3 AM: URBINA BAY PM: TAGUS COVE

This place is known for the dramatic uplifting that happened here during the 1950's. A large portion of the coast was pushed up, exposing many hectares of previously submerged land. Look carefully along the trail and you will find small shells and corals, a proof that the area was underwater more than sixty years ago. The trail will give the opportunity to see land iguanas and, during certain seasons, giant tortoises. Galapagos hawks nest in the area and are often seen flying or perched on the trees. Snorkel: You can snorkel from the beach to see sea turtles, cormorants and penguins. Fish are also abundant in the area. Highlights: Galapagos hawks, land iguanas, Galapagos hawks, Galapagos mockingbirds, Darwin finches, flycatchers. Tagus cove is one of the places Charles Darwin visited during his exploration of the Galapagos islands. A trail will take you through a dry Palo Santo forests where you can see Darwin finches and mockingbirds. You will get great views of Darwin's lake and the large volcanos of northern Isabela. A boat tour along the shore will give you chances to see penguins, cormorants, marine iguanas and a very unique species: the Galapagos martin, a small endemic bird which is one of the most endangered species on the island. Snorkel: The nutrient-rich waters around Tagus Cove attracts a lot of sea turtles and a great diversity of fish, but also penguins, who feast on large schools of anchovies. It is common to see cormorants underwater as they chase fish through the reef. Highlights: Galapagos hawks, marine iguanas, flightless cormorants, herons, penguins, sea turtles, sea stars.

DAY 4 AM: ESPINOZA POINT PM: ALBEMARLE POINT

Located at the base of an imposing volcano (the most active in the Galapagos islands) this site is one of the jewels of the Galapagos National Park. As soon as you disembark you will be surrounded by hundreds of marine iguanas, as this is the largest colony for the species. Sea lions bask in the beaches while their pups play in tide pools. Along the shore you will see flightless cormorants, which are restricted to the western areas of the archipelago. Surrounded by cold plankton-rich waters, Punta Espinosa is home for an array of species, including herons, pelicans, oystercatchers, sea turtles, shorebirds and many more. Look up in the mangroves as Galapagos hawks often perch to look for their prey. Snorkel: The nutrient-rich waters around Punta Espinosa attracts great numbers and diversity of fish and sea turtles. Seaweeds are also abundant, making this place the best for seeing marine iguanas feeding underwater. Following a cormorant underwater as it chases fish through the reef is one of the most amazing snorkel experiences you may have on your trip. Highlights: Galapagos hawks, marine iguanas, flightless cormorants, penguins, sea turtles, sea lions, herons, oystercatchers, shorebirds, Sally light-foot crabs. This place is great for wildlife as well as an historical site. During WWII, the Americans built a radar base in order to detect the presence of Japanese war ships approaching the Galapagos. You can still see a few remains of the radar. The area is barren and surrounded by endless lava fields, but along the coast you will find some of the largest marine iguanas in the islands, Galapagos penguins, flightless cormorants and shorebirds. Snorkel: A couple of sheltered coves offer great opportunities to snorkel to look for cormorants, penguins and many species of fish. Highlights: Marine iguanas, flightless cormorants, penguins, sea turtles, shorebirds, Sally light-foot crabs.

DAY 5 AM: EGAS PORT PM: ESPUMILLA BEACH / BUCCANEER COVE

Despite its name, there is no "port" at Puerto Egas, but you might see a few remains of the last attempts to colonize the island during the 60's. The trail goes along the coastline which is rich in wildlife, with marine iguanas basking in the sun everywhere, Galapagos sea lions, herons, oystercatchers and many shorebirds. At the end of the trail an area called "the grottos" is home for a small colony of the endemic Galapagos fur seal, much more difficult to see at close range than its cousin. As recently as 2019, land iguanas were re-introduced to the area, so look around for these impressive reptiles which were extinct from Santiago for over a century. Snorkel: You can snorkel from the beach and explore an area of rocky bottoms which is excellent for fish, turtles and reef sharks. Often, sea lions are also present and are happy to interact with divers. Highlights: Galapagos sea lions, Galapagos fur seals, oystercatchers, marine & land iguanas, Galapagos hawks, herons, shorebirds, Darwin finches, Galapagos doves. Espumilla is a beautiful 1km (0,6 mi) long

beach with rusty-brown sand, located in the northern coast of Santiago. It is surrounded by large mangrove trees and a very interesting native dry forest, which is home to Galapagos hawks but also a great diversity of finches, mockingbirds and doves. Don't forget to check the salt pan, as during the rainy season there could be flamingoes and ducks. Highlights: Bobbies, oystercatchers, herons, Galapagos mockingbirds, Darwin finches, Galapagos hawks. Trail: 2,3 km / 1,4 mi (plus and extra loop 1 km - 0,6 mi) This site gets its name because it was used by pirates and buccaneers during the XVII and XVIII centuries as a place to hide and get freshwater and tortoises. The place is very scenic with beautiful cliffs and interesting rock formations. There is no trail, but here you will take a dinghy to look at wildlife from the small boats. Snorkel: You can snorkel in a sheltered bay which is teeming with underwater wildlife including large schools of fish (angelfish, puffers, parrotfish, snappers, grunts...) but also reef sharks, sea lions and sea turtles. Highlights: Boobies, herons, Galapagos fur seals, swallow-tailed gulls, Galapagos hawks.

DAY 6 AM: DRAGON HILL

Located in the northern coast of Santa Cruz, Dragon hill gets its name from the land iguanas that inhabit this area, the only location in the whole island of Santa Cruz where you can see this large species of reptiles. Thanks to a very successful breeding program, this population of land iguanas, which was in the brink of extinction during the 70's and 80's, has rapidly recovered. There is also a small salt water lagoon where we can often see flamingoes, ducks, stilts, sandpipers and other shorebirds. Snorkel: After the hike, you will have the option to snorkel in shallow sheltered water where you will see large schools of surgeonfish and parrotfish, as well as reef sharks, rays and a large diversity of tropical fish. Highlights: Galapagos land iguanas, Darwin finches, American flamingoes, white-cheeked pintails, Galapagos flycatchers, herons.

YOUR SHIP: GALAXY SIRIUS

YOUR SHIP:	Galaxy Sirius
VESSEL TYPE:	Luxury Catamaran
LENGTH:	36.32 m
PASSENGER CAPACITY:	16
BUILT/REFURBISHED:	2023

Welcome to an unforgettable adventure in the Galapagos Islands aboard the luxurious Galaxy Sirius. Experience exceptional service and personalized attention as you relax in a comfortable, exclusive, and sophisticated atmosphere. Let us guide you on an unforgettable adventure in this dream destination.

Al Fresco. Immerse yourself in the beauty of the Galapagos Islands as you enjoy the sea breeze, socialize with friends, and sip on your favorite drinks. The perfect place to pamper your senses!

Lounge. Relax and unwind in our elegant Living Room. The perfect place to enjoy time at sea with cruise mates, surrounded by style and comfort.

Restaurant. Immerse yourself in an elegant atmosphere as you savor the exceptional cuisine prepared by our expert chefs. This is the perfect setting for an unforgettable culinary journey to indulge in.

Bar. Enjoy the lively atmosphere and socialize with fellow travelers as you sip your favorite beverage or one of our exquisite cocktail creations.

Solarium. Soak up the sunshine and breathtaking panoramic

views as you relax, stargaze, or simply enjoy the cool seaside air from our Sun Deck. The perfect location to embed the luxury that is in nature.

in nature.
