## INFINITY GALAPAGOS 8 DAY CRUISE B

Embark on an extraordinary journey through the enchanting Galapagos Islands with this thrilling itinerary. The adventure begins on San Cristobal Island, where you'll arrive at the airport and transfer to your boat to explore the captivating Puerto Chino or Breeding Center David Rodriguez. On Wednesday, set foot on Santa Fe Island in the morning, followed by an afternoon visit to the fascinating South Plaza Island. The following day, head to the iconic Tortoise Breeding Center and explore the impressive Twin Craters on Santa Cruz Island. As the week progresses, the itinerary takes you to the breathtaking Isabela Island, where you'll discover the diverse landscapes of Moreno Point, Elizabeth Bay, Urbina Bay, and Tagus Cove. Witness the unique wonders of Fernandina Island's Espinosa Point and Isabela Island's Vicente Roca Point, before exploring Santiago Island's Egas Port and the picturesque Bartholomew Island. The unforgettable experience concludes with a visit to North Seymour Island before bidding farewell to the Galapagos, leaving with cherished memories of a truly unforgettable wildlife and nature adventure.

### ITINERARY

#### Day 1: Tuesday SAN CRISTOBAL ISLAND

In the morning: San Cristobal airport arrival You will arrive at San Cristobal Island in the morning. After passing through immigration and baggage claim, you will be met by a Infinity staff member and transferred to the yacht. You will be shown to your cabin where you will have some time to settle in before lunch and a welcome briefing. In the afternoon: Puerto Chino Puerto Chino is located 15,2 miles (24.5 km) away from Puerto Baquerizo Moreno and a few miles from the Breeding Center Cerro Colorado. This walk takes approximately 30 minutes to the beach. Afterwards: David Rodriguez Breeding Center "La Galapaguera" Breeding Center David Rodriguez - "La Galapaguera", in Cerro Colorado, is a new visitor site in the southeast part of San Cristobal Island and can now be reached in roughly one hour by road from Puerto Baquerizo Moreno. On the trees and shrubs surrounding the site, you may see land birds like warblers, finches and mockingbirds. Giant tortoises can be observed on the trails. They live there wild but in a protected area to ensure their survival by sealing them off from introduced predators like pigs and goats.

## Day 2: Wednesday SANTA FE AND SOUTH PLAZA ISLANDS

In the morning: Santa Fé Island Santa Fe Island (Barrington) is home to the small picturesque bay and anchorage on the island's northeast coast. The bay has two visitor trails: one leading to a scenic viewpoint atop a cliff, and the other spanning from a small beach to a tall prickly pear cactus forest. In the afternoon: South Plaza Island This small island with steep cliffs was formed by rising lava and is now covered by Opuntia cacti. It is also home to one of the largest sea lion colonies as well as colorful yellow and red land iguanas. The most characteristic plant is the Sesuvium. During the rainy season its color is a greenish to yellowish tone and in the dry season (end of June through January) a bright red.

## Day 3: Thursday SANTA CRUZ ISLAND

In the morning: Fausto Llerena Breeding Center You will visit "Fausto Llerena" Giant Tortoises Creeding Center in Puerto Ayora, Santa Cruz Island, where giant tortoises are bred in captivity; this is home to tortoises ranging from 3-inches (new hatchlings) to 4-feet long adults. Subspecies of the giant tortoises interact with one another, and many of the older tortoises are accustomed to humans stretching out their heads for a photo opportunity. The babies are kept until they are about four years-old and strong enough to survive on their own. In the afternoon: Twin Craters You will visit the Twin Craters located opposite to each other on both sides of the road leading from Puerto Ayora to Baltra. The name is only figurative; not real craters, these formations were created by the collapse of surface material in underground fissures and chambers. The view is breathtaking.

## Day 4: Friday ISABELA ISLAND

In the morning: Moreno Point Moreno Point is located southwest of Elizabeth Bay. Here a dry landing onto what was once owing lava is possible. The lava has left craters in its wake which formed crystal tide pools. By looking into the pools, you can peer into another world as the marine life drifts by your window. In the brackish pools of this area, you may see pink flamingos, white-cheeked pintails, and common gallinules. If you look carefully into the pools, you may see white-tip reef sharks and some sea turtles. In the afternoon: Elizabeth Bay Elizabeth Bay is located on the east coast of Isabela Island. The bay contains many islets, which can be visited by dinghy. Penguins and blue-footed boobies can be spotted on the rocky islets. With an abundance of marine life and clear water, the area is perfect for snorkeling and viewing schools of colorful fish, sea lions, and perhaps even sharks.

## Day 5: Saturday ISABELA ISLAND

In the morning: Urbina Bay Urbina Bay is located at the base of Alcedo Volcano on the west coast between Tagus Cove and Elizabeth Bay. This area experienced a major uplift in 1954 causing the land to rise over 16 feet. The coast expanded half a mile out leaving marine life stranded on the new shore. This area is also a great place for snorkeling. In the afternoon: Tagus Cove In the morning, you will visit Tagus Cove on Isabela Island which is located across from Fernandina Island, near the Bolivar Channel dividing the two islands. This spot has been frequented by ships since the 1800s, using the area as an anchorage site. Trails winding by Lake Darwin up to a ridge display wonderful views.

## Day 6: Sunday FERNANDINA AND ISABELA ISLANDS

In the morning: Espinoza Point Crossing the Bolivar Channel that divides Isabela and Fernandina Islands, you will land at Espinoza Point, and after walking past a colony of marine iguanas and a group of sea lions, you will reach the island's highlight: the flightless cormorant nesting site. This area also provides a great opportunity to see the Galapagos hawk. In the afternoon: Vicente Roca Point Comprised of two separate coves, Vicente Roca Point is a large bay with spectacular sea life. Keep an eye out for seahorses, sea turtles, and the strange yet fascinating Mola mola (or sun fish) while you snorkel.

## Day 7: Monday SANTIAGO AND BARTHOLOMEW ISLANDS

In the morning: Egas Port Egas Port, also known as James Bay, on Santiago Island is home to the curious Galapagos hawks and quick-footed Galapagos lava lizards. The trail leads to the coastline with gorgeous tide pools and grottos full of fauna. Here the Galapagos furseals bathe in the sun. This is also a great snorkeling site. In the afternoon: Pinnacle Rock You will head to Bartholomew Island where the famous Pinnacle Rock is found. Bartholomew consists of an extinct volcano with a variety of red, orange, black and even green volcanic formations. We will take a trail of stairs to the summit of the volcano (about 30 or 40 minutes) where you will enjoy one of the best views of the islands! You will also visit a small, beautiful beach surrounded by the only vegetation found on this barren island. The beach is perfect for snorkeling where you may even see and swim with Galapagos penguins.

## Day 8: Tuesday NORTH SEYMOUR ISLAND

In the morning: North Seymour In North Seymour you may see Galapagos sea lions, blue-footed boobies, and magnificent frigate birds which are abundant on this island. North Seymour was formed by a series of submarine lava flows containing layers of sediment that were uplifted by tectonic activity. The island is characterized by its arid vegetation zone. Afterwards: Baltra Airport Departure After this final visit, you will be transferred to the Baltra airport in time for your flight back to the mainland.

## YOUR SHIP: INFINITY

<b>YOUR SHIP:</b>	<b>Infinity</b>
<b>VESSEL TYPE:</b>	<b>Luxury Motor Yacht</b>
<b>LENGTH:</b>	<b>161 feet / 49 meters</b>
<b>PASSENGER CAPACITY:</b>	<b>20</b>
<b>BUILT/REFURBISHED:</b>	<b>2018</b>

Infinity yacht, the best way to enjoy a great adventure and get to know the Galapagos Islands, surrounded by luxury and comfort. This beautiful ship was designed with families and small groups in mind. With two large suites and eight cabins, some of which are interconnected, all with panoramic windows and personal balconies, guests will feel right at home. Travelers can choose from 4, 5, and 8-day itineraries that are all full of adventure. With spacious social areas, such as an al fresco dining area, barbecue area, and living room, guests will be comfortable during their entire journey. When guests are aboard Infinity they will enjoy every second of their trip with the help of a cruise director and an attentive staff.
