RAJA AMPAT EXPLORER CRUISE

A breathtakingly beautiful archipelago. Explore a breathtakingly beautiful archipelago consisting of more than 1500 islands, cays and shoals. See the exotic Wilson's bird of paradise, cross the equator and take part in a manta ray convention! Snorkel through caves and take guided walks through the jungle! Perhaps it doesn't get any better than this! Return charter flights ex Darwin ARE INCLUDED in the tariff. This itinerary is provided as example only - prevailing conditions, local arrangements and indeed, what we discover on the day, may cause variation.

ITINERARY

Day 1 Welcome Aboard

Your adventure begins amidst the tropical charm of Darwin. After collection from your hotel, our attentive crew members will escort you onboard our chartered aircraft for the short flight to Ambon - gateway to one of the world's last frontiers, West Papua! Ambon is also where we will welcome you onboard the magnificent TRUE NORTH. Enjoy a welcome aboard cocktail as we begin our journey to the Banda Islands and watch the sun set in a different land before indulging in an equally stunning dining experience!

Day 2 Banda Islands

Today we explore the fabled Banda Islands. Steeped in history and the

evolutionary birthplace of nutmeg and mace, Banda is at the epicentre of Indonesia's 'Spice Islands' and was a Holy Grail for European, Arab and Chinese spice traders up until the late 1800's. So valuable in fact were these islands that in 1667, Holland traded New Amsterdam (the quaint island now known as Manhattan) to the British for tiny Run Island - an acquisition that completed their monopoly of Banda nutmeg! Traditional war canoes will lead us into Banda harbour before we join a guided tour of Banda Neira Island featuring a nutmeg plantation and a fascinating historic museum. Back on-board our guest biologist will introduce the area's intriguing natural history before you head-off in the adventure boats for a scenic tour or perhaps your first opportunity to snorkel and dive on sunken lava flow. Then join guest and crew alike for sunset drinks in historic Fort Belgica which overlooks Banda harbour and the still active volcano Gunung Api.

Day 3 Fakfak Coast

It's time to explore the intriguing Fak Fak Coast. Start with a fishing trip to the Bomberai Peninsula or indulge in a scenic tour in the adventure boats through the hidden lagoons - lookout for hornbills and other Papuan birdlife. And don't forget your snorkel and your SCUBA tank - the area is also renowned for its aquarium like qualities. Enjoy a refreshing swim under the beautiful Mommon Waterfall - where chilling freshwater thunders down lush jungle slopes into the warm waters of the sea. In the afternoon explore Sebakor Bay and its spectacular system of water-filled caves. More snorkelling and diving is also possible but make sure you're back in time for the chef's much-lauded wine and cheese appreciation evening

Day 4 The "Four Kings"

Wake up and revel in the fact that you're now in Raja Ampat - the "Four Kings" - a global epicentre of marine biodiversity! You'll want to maximize every possible minute in the water - snorkelling and diving on breathtaking reef with rainbows of soft corals and huge shoals of fish is a testimony to the efforts of those who protect the SE Misool Marine Park. The park's dive and snorkelling sites are some of the most iconic in all of Raja Ampat - marvel at the huge number of sea fans in the Wayilbatan Channel, the massive schools of fish off "Nudi Rock" and the spectacular underwater scenery at "Boo Windows". In the afternoon you will have a chance to visit the Misool Eco Resort before heading over to Kalig Beach for spectacular sunset drinks, wear your swimmers if you would like to try the stand-up paddle boards or, if you think you might enjoy a leisurely kayak before your sunset cocktail!

Day 5 Misool Island

This morning we continue our adventures at Misool Island. The waters surrounding this island teem with fish life, over-sized sea fans and, feature the underwater caverns of Farondi Island. Enjoy an opportunity to get your heart racing on a hike up to 'Harfat Peak', this recently constructed track consists of 290 steps which lead to heavenly panoramic views over the rugged Karst islands and its shallow turquoise lagoons. Over lunch we will steam to one of the prettiest anchorages in Raja Ampat - the Mesempta Karst Channels. Then we're off for a unique float through the sacred Tomolol cave system - a truly awesome adventure. In the late afternoon join your favourite adventure boat for a 'TRUE NORTH Raft Up', enjoy a cool beverage and delicious nibbles as we travel through the picturesque Karst Islands - don't forget your camera!

Day 6 Cape Kiri

It's an early start today as the shore parties head into Sawingkrai Village and trek through the jungle to see the magnificent red bird of paradise. Cape Kiri is our mid-morning location - a long and narrow island that offers more of Raja Ampat's best diving and snorkelling. In fact, the abundant variety of fish seen at Cape Kiri will likely astound! It was here that the TRUE NORTH's specialist guide, ichthyologist Dr. Gerry Allen, smashed his record for the total number of fish species recorded on a single tank dive - 374 species! Alfred Russel Wallace was a British natural scientist and geographer who voyaged extensively through Raja Ampat from 1854-1862. He is best known for independently conceiving the theory of evolution through natural selection and his paper on the subject was jointly published with some of Charles Darwin's writings in 1858. This afternoon you will glide in the comfort of our adventure boats through the winding channel that bears his name. This narrow salt-waterway is flushed by strong currents, producing a vibrant habitat for marine life, while on either side of the channel, the equatorial jungle looms over the water, replete with birds and butterflies, tree ferns and orchids. It is a tropical ecosystem at its most magnificent and it is easy to see how it may have helped to inspire the great scientist to perceive new insights into the evolution of life on Earth.

Day 7 Wofoh Island

Wake to the stunning scenery of Wofoh Island - enjoy a breath-taking dive on the black coral forest, snorkel over the lush coral gardens or simply laze on the

gorgeous white sand beach (watch out for falling coconuts!) Later in the morning we'll set off to the rocky islets of Bougainville Strait and if we're lucky we can take part in a manta ray convention! Plankton rich currents often attract large numbers of manta rays to Eagle Rock - jump in and have a swim with these gentle giants of the sea! This afternoon we will arrive at the Equator Islands for a unique opportunity to swim or snorkel across the equator! Our nearby anchorage will provide us with an afternoon of fishing, snorkelling and diving or take a sightseeing expedition to view spectacular rock formations, caves and blowholes.

Day 8 Fam Island

This morning TRUE NORTH will be anchored at the spectacular Fam Group of Islands. We will visit the charming village of 'Fam' where we will be welcomed by the local school children. Perhaps you may like to purchase some locally sourced coconut oil! The adventure boats will offer scenic tours around beautiful Penemu Island which boasts even more opportunity for beachcombing, snorkelling and diving. Moray eels, sea snakes and nudibranchs have all been spotted in this area! For those feeling energetic, take on the 300 uphill steps at Pianemo Island. Once at the top, enjoy spectacular panoramic views of the Karst Islands from the highest peak on the island!

Day 9 The Wayags

More unique experiences are in store! You'll hardly believe your eyes as you emerge from your cabin and gaze upon the mind-blowing "karst beehive" islands of Raja Ampat's 'poster child' - the Wayag Archipelago. Enjoy a snorkel on breathtaking reef before we wander through the maze of lagoons in the adventure boats. In the afternoon we visit the Wayag Research Station where you will have the opportunity to swim with some black tip reef sharks, or view from the jetty if you prefer! Tonight, let your hair down at the TRUE NORTH Equator Party!

Day 10 Wayag Beach Party

After the previous night's festivities wake and look forward to a second day in the Wayags! Another breathtaking day of snorkelling, diving and sightseeing! Plus we've got a new activity in mind today - get ready for our "Wayag Beach Party". Select your place in the sun (or under a shady palm tree) and let the

crew entertain with a sumptuous beach picnic and all manner of aquatic toy! Bizarre island formations, an azure sea, sparkling beaches fringed with palm trees and in the background, dense Papuan jungle - two days in the stunning Wayag's is never enough!

Day 11 Mapia Atoll

Mapia Atoll is a remote and exquisite coral atoll seldom visited by tourists. Located north of the equator and lying basically in the middle of nowhere, the atoll presents classic opportunity to indulge in tropical ocean splendour. Vertical walls rise several thousand feet from the ocean floor and come alive with brilliant soft corals, gorgonians, sponges, myriads of tropical fish and prolific green and hawksbill turtles. Recently our guests spotted 21 turtles during a 45 minute dive! The area also has an enviable reputation for light game fishing. Snorkel, dive and fish to your hearts content!

Day 12 Ayau

Next we visit Ayau - one of the largest atolls in eastern Indonesia. This remote and very beautiful atoll was colonized by Papuan fishermen from Biak Island (to the east) over 100 years ago. The Ayau people are skilled at all means of hunting and gathering - from collecting edible worms from powdery-white sand beaches to spearfishing amidst the coral splendour. The atoll is surrounded by crystal clear water that is frequented by large pods of dolphins. The outer reef drops sharply to over 1000m and clouds of beautiful fish carpet the reef walls. The adventure boats will be busy as we snorkel and dive at several sites around the atoll or you can head off to the big-blue (outside the Ayau Marine Park) to try your luck at some deep-water trolling for wahoo, sailfish and tuna! We'll also enjoy a visit to the quaint village of Reni.

Day 13 Return to Darwin

Enjoy breakfast on-board before a private car transfer to Biak Airport and your chartered flight back to Darwin.

YOUR SHIP: TRUE NORTH & TRUE NORTH II

YOUR SHIP:	True North & True North II
VESSEL TYPE:	Luxury Expedition
LENGTH:	True North - 50 metres/True North II - 35 meters
PASSENGER CAPACITY:	36/22
BUILT/REFURBISHED:	2005/2023

TRUE NORTH

The TRUE NORTH allows discerning adventurers to experience wilderness in surroundings more akin to one of the world's most exclusive hotels. Guests are able to take advantage of a number of lavish vantage points including a sundeck, a forward observation lounge, a ship's lounge and an alfresco bar. The ship's naturalist presents interpretative information on plasma screens and, an internet cafe enables convenient communication with the outside world.

A popular venue on any North Star cruise, the lower deck dining room offers the ultimate in comfort and uninterrupted vista - large panoramic windows ensure that guests never miss any of the action, even when they are enjoying the 'finest in fine dining'. All cabins feature stylish decor, en-suite facilities, in-house entertainment and satellite telephones. The Explorer Class staterooms and the River Class cabins offer king size beds that can be converted to singles and the Ocean Class twins feature roomy single beds.

Multiple expedition boats provide guests with greater opportunity to do "what they want, when they want" and, to add

yet another dimension to adventure, most cruise options feature an onboard helicopter! The purpose built TRUE NORTH is able to explore the upper reaches of shallow river systems - guests need only step out of their cabins to experience wilderness and, the latest in computer controlled motion stabilizers ensures a comfortable ride.

TRUE NORTH II

TRUE NORTH II features a more intimate experience with just 22 guests and a combined saloon/lounge. The dining salon features a stunning 'boardroom' setting and the revered True North dining experience. There is also a sundeck, outdoor bar deck and a dedicated sports deck.

All cabins feature ensuite or private facilities with in-house entertainment and satellite telephones. The Explorer Class staterooms and River Class cabins offer queen-size beds and the Ocean Class cabins feature roomy bunk-configured singles.

Just like the TRUE NORTH - TRUE NORTH II is purpose-built to explore coastal areas including the upper reaches of shallow river systems - guests need only step out of their cabins to experience wilderness. But the adventure doesn't stop there! Multiple adventure boats provide guests with greater opportunity to do "what they want, when they want" and, to add yet another dimension to adventure, most itineraries feature an onboard helicopter!

And again, just like they are on TRUE NORTH, the crew of the TRUE NORTH II are generally young Australians who create a truly authentic onboard experience. Our crew are always very much part of onboard life - you may even feel as though they are having just as much fun as you are! That's because they are

- every day is an adventure for the crew as well and you will not be able to resist their enthusiasm and passion!

Unlike more conventional cruise experiences - True North crew are encouraged to interact with our guests. They will uniquely chaperone your every experience providing assistance, interpretation and genuine company. They will bait your hook and carry your SCUBA tank but they will also join you for dinner and entertain in the ship's lounge. And not forgetting that they will also prepare fine meals of distinction, maintain your cabins with our renowned degree of attention and safely navigate ship, boat and helicopter to each destination. Guests on a True North adventure cruise never fail to recognize the outstanding involvement of the crew - they are one of the reasons that an adventure on the TRUE NORTH is not just another expedition cruise!
