SVALBARD ADVENTURE - A TRUE ARCTIC EXPEDITION

Join the comfortable expedition ship M/S Quest on an unforgettable Svalbard adventure! The midnight sun reigns supreme, the bird colonies are teeming with life and the peaks of the dramatic mountain ranges are beautifully snow-covered. The ice still keeps the islands in its grip and we can admire the ever-changing ice formations. Spring has arrived and summer is just around the corner. We stay one night in a hotel in Longyearbyen and then spend seven night on board the expedition ship exploring this Arctic pearl that has fascinated explorers for centuries.

We cruise along glistening glaciers, go ashore to enjoy the unique nature and keep a lookout for unique wildlife such as walrus, seals and polar bears. We are now in a part of the world where we are totally dependent on the ice and weather conditions. Our exact itinerary depends on these factors and on the wildlife we encounter. Our ambition is to make landings or cruises every day with our Zodiacs. Here are some examples of places we may visit: Prins Karls Forland, Virgohamna, Danskøya, Fantastic fjords, North Spitsbergen, Southwest Spitsbergen

ITINERARY

Day 1: Longyearbyen, Svalbard

We arrive in Longyearbyen and transfer to our hotel.

Day 2 - 8: Expedition

We start our adventure in Svalbard by exploring Longyearbyen. In the afternoon we embark the expedition ship and sail out through Isfjorden. We are now in a part of the world where we are totally dependent on the ice and weather conditions. Our exact itinerary depends on these factors and on the wildlife we encounter. Our ambition is to make landings or cruises every day with our Zodiacs. Here are some examples of places we may visit: Prins Karls Forland This narrow strip of land is covered by a magnificent and snow-covered mountain chain. The island is also home to many seabirds and harbour seals. Virgohamna, Danskøya Two of the most courageous attempts to reach the

North Pole started on the island of Danskøya. Swedish explorer Andree made an attempt with a hydrogen balloon and American journalist Wellman started with an airship. There are still interesting remnants from these expeditions left on this site. Fantastic fjords Svalbard offers the visitor countless spectacular fjords. During our journey we will explore a few of them such as: Liefdefjorden, meaning "The fjord of love", is lined with snow-covered mountain peaks and here we hope to cruise along the face of the spectacular Monaco Glacier. Many common eiders and pinkfooted geese nest in the area and if lucky we could see the rare king eider. In Krossfjorden we revel in the beautifully sculptured front of the 14th of July Glacier to the raucous greeting of the large number of kittiwakes and Brunnich's guillemots nesting on the nearby cliffs. Raudfjorden is an area of immense natural beauty - dominated by beautiful glaciers. It is also a favourite spot for seals and the bird cliffs are bursting with activity. The scientific village of Ny-Ålesund is situated in Kongsfjorden. It was from here that Amundsen and Nobile started their heroic expeditions to the North Pole. North Spitsbergen North of Spitsbergen we might meet the edge of the pack ice. Not many ships venture here and we can marvel at the silence and grandeur of this icy landscape. Chances of meeting polar bears increase as we sail along the ice floes. Southwest Spitsbergen The grand fjords of Hornsund offer spectacular glaciers and a breathtaking landscape of towering mountain peaks, often reaching above the clouds. On a clear day we can see the summit of the highest mountain Hornsundtind, measuring 1431 meters. Hornsund is a favourite haunt for some of Svalbard's polar bears and bearded seals are often seen resting on the fjord ice.

Day 9: Longyearbyen

Early morning we disembark our expedition ship and begin our journey back home.

Please note:

Our exact route will depend on ice, weather conditions and wildlife. The places mentioned are just examples of some of the many sites Svalbard has to offer. We always strive to maximise your experience. Please remember that flexibility is the key to a successful expedition!

YOUR SHIP: QUEST

YOUR SHIP:	Quest
VESSEL TYPE:	Expedition
LENGTH:	66 metres
PASSENGER CAPACITY:	50
BUILT/REFURBISHED:	1992 / 2005 / 2018

M/S Quest was built in Denmark in 1992 to serve as a ferry on Greenland`s west-coast. In 2004/2005 she was redesigned as an expedition ship and has now a career as a small and comfortable expedition vessel. She was extensively renovated in 2018. Quest takes 53 passengers in 26 cabins, all with sea-view and private facilities. The triple cabins on deck 3 have upper and lower berths. All other cabins have two lower berths or a double bed. In your cabin you also find a desk with chair and ample storage space for clothes and equipment. The superior cabins on deck 3 and 4 are spacious and have a separate sitting area and TV/DVD. The Owner`s cabin, next to the Captain`s cabin, on deck 4 has a double bed, two large picture windows, a sitting area and TV/DVD.

The owner's cabin has a double bed, two large picture windows, a separate seating area and TV. In the dining room you are treated to delicious meals in between landings and in the panorama lounge you can enjoy breath-taking views of the surrounding landscape. Here you can listen to entertaining talks on the area's flora, fauna and history. In the lounge you also find a bar and a small library. The ship has spacious observation decks, where you can enjoy the beautiful vistas. Passengers are

welcome on the bridge around the clock and there is always something to see or search for. You are welcomed by an international crew and the atmosphere is relaxed and very friendly. There are five Zodiacs and five guides on board M/S Quest.

M/S Quest.
