TOTAL SOLAR ECLIPSE IN THE FAR NORTH - SPITSBERGEN, ICELAND & GREENLAND LUXURY CRUISE

Beyond the Arctic Circle, facing landscapes frozen in time by the ice, set off on a fascinating journey to discover the islands of the Far North. For 14 days, from Spitsbergen to Iceland, via Jan Mayen Island and the eastern coast of Greenland, between fjords and glaciers, observe wild and mischievous nature as it wakes itself up, and set off to encounter the communities who live in these parts of the world, guardians of these untamed spaces. In this hushed world, facing completely unobstructed skies, you will seek out a rare phenomenon: the total solar eclipse, and discover its secrets thanks to the exceptional presence of astronauts Claudie and Jean-Pierre Haigner e.

From Longyearbyen , one of the world's northernmost towns, you will weigh anchor, leaving behind the small colourful wooden homes that dot the landscape.

You will set sail to the north-west of Spitsbergen, keeping an eye out for the appearance of the first glaciers and the huge snow-covered peaks that gave the region its name. In this white kingdom, you will sail soothed by the romantic play of the midnight sun upon the icy waters of the fjords. You will observe the slow dance of the colonies of Arctic fulmars, Arctic terns, black-legged kittiwakes and guillemots nesting on the vertiginous cliffs. On your left, in the distance, bearded seals laze on a piece of ice floe while, on the neighbouring peninsula, mossy tundra offers Svalbard reindeer and Arctic foxes an ideal playground. You will scan the horizon in the hushed silence of the fjord, hoping to spot the lord of the manor: the polar bear.

Next, your ship will make its way to Jan Mayen Island , which was very dear to Captain Jean-Baptiste Charcot. Located on the threshold of the Arctic and North Atlantic oceans, this isolated and uninhabited volcanic island was a whale hunting centre and is home to large bird colonies.

As you sail along, you will perhaps see whales, before reaching the region of Ittoqqortoormiit on the east coast of Greenland. In the eponymous village, you will receive a warm welcome from the Inuit community and discover their traditions during special and authentic moments, before entering Scoresby Sound , the world's largest fjord network. This unique setting, made up of gigantic icebergs, golden brown moorland and sheer walls reddened by the minerals, is home to exceptional fauna: musk oxen, Arctic wolves and foxes, seagulls, barnacle geese and other migratory birds. Aboard *_Le Lyrial_* or a Zodiac dinghy, you will admire the power of nature while becoming aware of its fragility. On board, the team of naturalists will scan the horizon so they can provide you with marvellous sightings of wildlife and, in particular, the polar bear. The region's elusive fauna upholds its mysteries while the uncertain nature of the encounter bestows an indescribable magic upon it.

Finally, your ship will set sail towards Iceland. From the village of Isafj orður to Westfjords , between lost valleys and sheer cliffs, discover a land of legends, of wild and enchanting beauty. In the total darkness of night and weather conditions permitting, the Captain will take you along coasts full of mystery, in search of the best place to observe this total eclipse, the 16th to occur in the 21st century. You will be captivated by the unique spectacle, during which the Moon will obscure the Sun.

As we cannot control the weather conditions, we cannot guarantee the observation of this total solar eclipse. Nevertheless, the Captain will have room for manoeuvre and will be able to sail towards the most suitable places on the eclipse 's trajectory.

Itinerary is __subject to change according to port authorizations and government regulations. We are privileged guests in these remote lands where we are at the mercy of weather, ice, tidal and current conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the AECO._

peninsulas, northwest Spitsbergen fascinates with its preserved beauty. On these pristine lands, infinity unveils itself, treating the eyes to beauty sculpted by nature and enhanced by the changing light. The fjords bathed by icy waters, the jagged mountains and the imposing glaciers stand majestically before you, like monumental sculptures. In these lands, where souls are filled with deep serenity, only the murmur of broken ice, bearing mysteries and legends, disturbs the calmness. Aboard our Zodiacs and in the company of naturalist-guides, get as close as possible to this unique fauna and discover this centre for scientific expedition departures. In the distance, majestic whales glide silently through the glacial waters, whereas seals, walrus and Arctic foxes add a playful touch of life. As Svalbard reindeer wander the vast expanses, Arctic terns liven up the polar sky with their gracious flight and polar bears, which you may be lucky enough to see, patrol magnificently along the icy shores.

Day 2 - Ny-Alesund

During your cruise, discover Ny-Ålesund, a former mining town that has been transformed into a scientific base. Founded in 1916, this small town was the departure point for many Arctic expeditions, including those of the famous explorer Roald Amundsen. Don't miss a visit to the museum and its famous post office, considered to be the most northerly in the world!

Day 2 - 5 North-West region of Spitsbergen

A kingdom of contrasts and natural marvels dotted with islands and peninsulas, northwest Spitsbergen fascinates with its preserved beauty. On these pristine lands, infinity unveils itself, treating the eyes to beauty sculpted by nature and enhanced by the changing light. the AECO._

ITINERARY

Day 1 - Longyearbyen, Spitsbergen

Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.

Day 2 - North-West region of Spitsbergen

A kingdom of contrasts and natural marvels dotted with islands and

bears, which you may be lucky enough to see, patrol magnificently along the icy shores.

Days 6 - 7 At sea

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

Day 8 - Jan Mayen Island, Svalbard

The island of Jan Mayen, belonging to Norway, lies hidden off Greenland's coastlines, lost between the Arctic Ocean and the North Atlantic Ocean. This small piece of land is inhabited by only a handful of Norwegian meteorologists. Tongues of ice descend from its volcanic summit, which culminates at 2,227 metres and is covered with a thick glacial coat. These tongues join the sea, between ranges of black volcanic rocks at times tinged with red. If the sky is clement, you will have the chance to glimpse the summit, decked out in magnificent light. The visit of a small fin whale will perhaps enable you to complete this memorable picture.

Days 9 - 10 Ittoqqortoormiit Region

On the East coast of Greenland, in the Ittoqqortoormiit region, you will have the rare opportunity of immersing yourself in the heart of isolated scenery and exploring the beauty of its landscapes. The high alpine mountains stand out in

the sky, revealing dark rock edges. The region is home to the longest fjord system in the world, Scoresby Sound. On the edge of the fjord, the eponymous village is considered one of the most remote inhabited places in the world. The colourful houses, so typical of Greenland, dot the landscape with small red, yellow and blue patches that stand out against the surrounding arid landscape. Immersing yourself in this region will allow you to discover the ancestral way of life of the last hunters of the polar region. This will be a veritable deep-dive into the lives of the Arctic's inhabitants.

Day 10 - Scoresby Sound

Covering an area of 13,700 km² (5,290 mi²), Scoresby Sound is the largest and deepest fjord system in the world. Named after the explorer and whale hunter William Scoresby, who mapped the region in 1822, it opens onto the Greenland Sea to the north of the Blosseville Coast. This wild and desert region offers untouched panoramas of infinite beauty, with high snow-capped peaks rising tall alongside icebergs immersed in clear, blue-tinged waters. Discovering these stunning places in the wake of great explorers like Captain Charcot, who was deeply attached to the land of the Inuit, inspires a profound reverence.

Day 11 - At sea

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

Day 12 - Isafjörður

Your ship will take you to the heart of the fjords of North-West Iceland, a wild land of lost valleys and steep cliffs, where man struggles to survive. In this very isolated region we find the Isafjörður fjord, undoubtedly one of the most beautiful in the country, mainly for its relief, forged by many very ancient basaltic flows. The town of Isafjörður, which nestles at the back of its fjord, between imposing mountains, is a delightful little town that lives exclusively from fishing. The capital of the Western fjords, its old wooden houses bear witness to its past as a major fishing port.

Day 13 - West fjords

Day 14 - Reykjavík

Iceland's capital stretches along the edge of a vast bay in the west of the country. Perlan, the "Pearl of Reykjavik", a museum located on 'Oskjuhlíð hill, offers a panoramic view of the lush, green landscapes. A little further, one can easily spot the signpost showing the way to the evangelical Hallgrímskirkja church, and to the historical centre where one can stroll along the Skólavörðustígur and the Laugavegur, two lively streets with charming small shops. For some relaxation just outside of the city, visitors have the opportunity to visit the Reykjanes peninsula and its famous thermal lagoons of the Blue Lagoon.

ide spirit.

Launched: 2015

A sleek silhouette, a welcoming intimate atmosphere, discover aboard this new ship the philosophy that has made our sisterships such a success: the spirit of Yacht Cruises.

Sailing under the French flag, this magnificent yacht of only 122 staterooms and Suites, with balconies, will join our fleet in April 2015. You will be enchanted by the contemporary decor inspired by the our destinations and the blue light of the Vega star in the Lyra constellation. The result is a subtle variation around a palette of blues, ranging from the luminous delicate grey-blue of the Polar ice to splashes of the vivid turquoise blue found in Mediterranean coves

A refined ambiance is enhanced by the quality of the workmanship and materials: white Corian counters in the lobby contrast with the warmth of leather to recall a boat's hull, while the central sculpture of enamelled pieces takes its inspiration from the sea. In the loungebar, the carpet picks up a tennis stripe theme symbolising a certain idea of cruising, one synonymous with French elegance and a chic seaside spirit.
